Tell a good Performance Story

RISE UP
BUILDING LEARNING COMMUNITIES

Rise UP is a highly successful programme that enjoys strong support from its community of Pasifika and Māori whanau. Our story so far spans a seven year journey in which vision, people, passion, faith, programmes, hard work, professional and organisational development, and a partnership with The ASB Community Trust have woven together for a special purpose.

Rise UP Trust
Rise UP Trust began life in a garage, as Auntie Sita's Home School. Today, it is a thriving charitable trust with a strong organisational culture and a pool of talented people.

AUCKLAND
Rise UP Trust is determined to lift the educational achievement of Pasifika and Māori children in South Auckland communities, and eventually to reach others further afield through replicable programmes.

Resources invested
\$0.15 million } A grant over two years from other philanthropic organisations including Todd Foundation, Mayness Fund for Youth, Max Foundation, The Trusts Community Foundation.
\$1.4 million } A grant over 5 years from ASB Community Trust through the Māori and Pacific Education Initiative (MPEI)

Information + Application Transformation

hearts& minds
Hearts and Minds engages parents. This seven week course equips parents with the keys to unlock their child's learning potential. Parents feel empowered as they understand the connection between their child's learning style, love language and personality type and the best way to develop the child's thinking and problem solving skills.

SYNERGY
Synergy releases the gold that parents have learned in Hearts and Minds. A family programme with three way learning, where Educators take parents and their children through real life problems to develop thinking, questioning and problem solving skills. Parents and children develop their communication skills as they work with their child's learning style, love language and personality style.

Rise Up Kidz
Rise UP Kidz is our children's programme which develops beautiful minds in children aged 6-12. An hour of power learning for seven weeks, focusing on real life problem solving skills using Inquiry Learning. Children develop their thinking, questioning and problem solving skills. They have chances to practice leadership and communication techniques. Their confidence soars as they interact with other Kidz, Rise UP Educators, and their community.

Leading Change Effectively
